Education

Shri Guru Gobind Singhji Institute of Engineering and Technology   Nov. 2022 – Apr 2026
Bachelor of Information Technology   *Nanded, Maharashtra*

Relevant Coursework

- Data Structures
- Software Methodology
- Database Management
- Object Oriented Programming(OOP)
- Aptitute/Logical Thinking
- Professional Communication

Experience

Web Development Projects (Freelance / Personal Project)   September 2024 – present
Doctor Appointment System   *Nanded, Maharashtra*

- It is a collaborative project from college. Developed a Doctor Appointment System that allows patients to book appointments with doctors, manage schedules, and receive reminders. This system also enables doctors to manage their availability and appointments efficiently.
- Built a full-stack web application using MongoDB, Express.js, React.js, and Node.js (MERN). Implemented user authentication with JWT (JSON Web Tokens) for secure login and session management for both patients and doctors. Designed and developed the front-end using React.js to provide an intuitive UI/UX, allowing users to book, view, and cancel appointments. Created RESTful APIs with Node.js and Express.js to handle appointment booking, updating schedules, and managing patient data
- Used Redux for state management across the React application, ensuring real-time updates for appointment bookings and changes. Implemented appointment reminder notifications via email and in-app alerts to improve user experience
- Ensured the application was responsive across different devices (desktop, mobile) using Bootstrap and custom CSS.

Projects

Voice Recognition Application | *HTML, CSS, Javascript*   **February 2024**
- ∗ Developed an voice recognition application with use of speech recognition API. It listens to the user's speech and performs actions based on recognized phrases
- ∗ It's functionality are like If I say Open Youtube and play song then it will open youtube and play. Even same for Instagram,spotify,google etc.
- ∗ it will hide slang with asteric if i used while communicating like " Sh*t ".

Note Application | *HTML, CSS, Javascript, LocalStorage*   **October 2024**
- ∗ Developed a simple, interactive note-taking web application that allows users to create, edit, and delete notes. The application uses localStorage for persistent data storage, ensuring notes are saved across browser sessions.
- ∗ Editable Text Area: Each note is represented by a textarea, enabling users to freely type, update, and edit their notes. Delete Functionality: Users can delete notes by double-clicking on them, with a confirmation prompt to prevent accidental deletions.
- ∗ Designed and implemented the core functionality of the note-taking app using vanilla JavaScript. Managed data persistence using localStorage to ensure notes are retained between sessions.

Technical Skills

Languages: Java, C, C++, HTML/CSS, JavaScript,python, SQL
Developer Tools: VS Code, Eclipse, JetBrains IntelliJ IDEA
Technologies/Frameworks: Linux, GitHub

Leadership / Extracurricular

Google Developers Group   september 2024 – Present
Event Head   *SGGS, Nanded*
- ∗ Successfully organized the national level hackathon called HackFusion by SWAG(sggs's web App Graphic).
- ∗ Secured 441 rank and score 66 score out of 90 in All India Placement Aptitute Test held by **IIT Kharagpur**.
- ∗ Solved more than **100** coding problems on Leetcode, GFG and CodeChef.
